## Robert Chong Joins Medialon as Product Specialist

**Orlando, Florida – 30 August, 2019 – Medialon, specialist provider of show control solutions for the control, supervision and monitoring of lighting, audio, video and special effects for museums, attractions and theme parks worldwide, has announced the hiring of Robert Chong as Product Specialist to service customers and installation sites across the EMEA region.**

Chong brings more than twenty-seven years of experience working with the Medialon brand and product range as engineer, consultant and integrator. His career includes sales and technical leadership roles for a range of audio-visual companies across Europe and Australasia including Barco, Gibson International, Atea and ZKM.

**Eric Cantrell**, VP of Business Operations for Medialon comments, “At Medialon, we are committed to ongoing to the support of customers and installations – both existing and new. Robert has worked closely with our team, customers and product line for many years and in his new role, will allow us to carefully consider the needs of all projects - developing and delivering the very best show control solutions for entertainment and attractions markets that consistently exceed expectations.”

In July 2019, the team behind media serving company **7thSense Design** led the acquisition of the Medialon brand and ShowControl activities from Barco to form a new company, Medialon Ltd. The new company joined the 7thSense Design family and operates from Orlando, FL., with satellite offices across the United States, United Kingdom and Canada.
